COINS FOR KIDS™, 3rd Ed.

An Introduction to U.S. Coinage and Discovery Guide

by Richard Kevin Paul

91 pages (color) | 8.5 x 8.5 in. | 8.5 oz.

Copyright/Publish Date: May 2025 (1st Ed. © 2016, 2nd Ed. © 2020)

While there are many book options available for experienced and specialty collectors, COINS FOR KIDS is an introduction to modern U.S. Coinage for kids and young adults - or for anyone jumping into the big world of coin collecting. It includes real pictures of coins you can find with a little effort, and a little history and specifications for each coin, such as metal composition, size, edge decoration, etc. It also estimates your chances of finding certain coins in circulation, and introduces coins you might find at the bank, and others you have to order.

This Third Edition is updated for 2025 and includes expanded information on:

New America's Women Quarters,

Native American Dollars,

Innovation Dollars,

Expanded Glossary, and New Information on

Handling Coins,

Basic Coin Collecting Tools, and

How To Get Started.

In the back, there is a also a page explaining and inviting you to design and submit your own Coin Design.

WORLD COINS For KIDS And BEGINNERS™

An Introduction to Circulating Coins from Countries Around the World

by Richard Kevin Paul

153 pages (color) | 6 x 9 in. | 10.2 oz.

Copyright/Publish Date: June 2025

We're all somewhat familiar with the coins from our own country, but what about countries you've never even visited? World Coins for Kids and Beginners introduces you to circulating coins from countries around the world, all found in pockets (like yours) used in everyday transactions - like buying groceries, coffee, ice cream, or a bus or subway ticket. Discover different currencies, coin denominations, language(s), capitals, population, and flags of other nations.

Over 135 Countries, including information about each country's:

National Flag,

Capital,

Population,

Language(s) spoken,

Land Area,

Circulating Coins,

National Currency/Monetary Unit and former currency.

Also, which countries are members of the United Nations and the European Union.

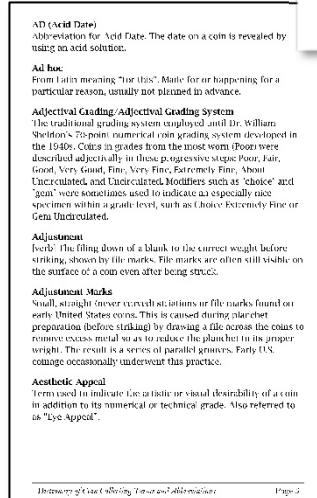

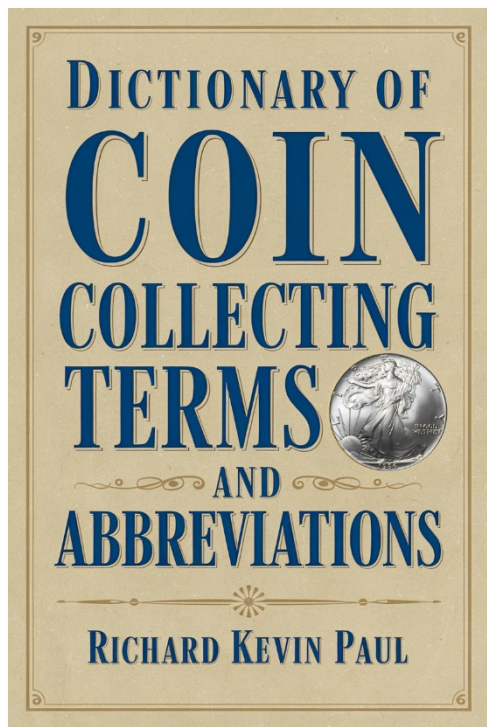

Fun facts include the country's national bird and flower.

THE COMPLETE GUIDE TO COLLECTING COMPOSER COINS™, 3rd Ed.

World Coins, with Variations on a Composer Theme

by Richard Kevin Paul with Alan Glasser, Contributing Ed.

116 pages (color) | 8.5 x 8.5 in. | 12.8 oz.

Copyright/Publish Date: 2022 (1st Ed. © 2015, 2nd Ed. © 2016)

The purpose of this book is threefold: 1) To provide the most complete repository of information about Composer Coins; 2) To introduce coin enthusiasts to Classical Music; 3) To introduce Classical Music enthusiasts to Coins. In addition to adding new Composer Coins, this 3rd Edition fills-in even more gaps regarding existing coins' missing details (weight, size, composition, etc.). If you are interested in Classical Music and are even slightly curious or interested in coins, this book includes some of the most beautiful and interesting coins ever minted. There are so many countries represented, this list is a great introduction to world coins; and depending on where you are in your collecting - it can be a welcome respite from the "same old, same old" monotony if you've been collecting coins only from your own country. This is a fun and easy way to wade into the ocean of World Coins.

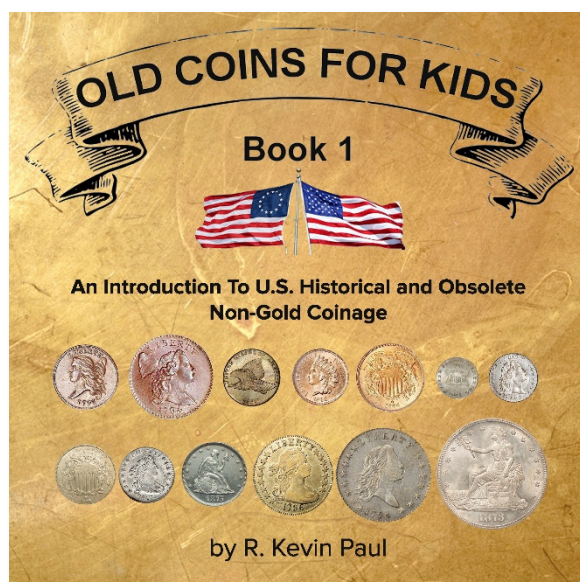

The Guidebook includes information such as the following:

Complete coin listings including: Composer Name, Country, KM# or Y#, Date, Denomination / Value, Metal Content (oz.) & Purity (%), Weight (g), Mintage (k/m). Brief stats about the composers: Portrait, Dates, Country of Birth, Period, Genres/Forms Used, Notable Works.

About The First Edition:

"Extraordinary Merit, 2015 Writers' Awards" - Numismatic Literary Guild

"This guide is a clear, definitive book on this often overlooked collecting area which interests many in our hobby today...I heartily recommend it." - Marc Ricard, Numismatic Bibliomania Society, E-Sylum Vol. 18, #31

OLD COINS FOR KIDS™: Book 1

An Introduction to U.S. Historical and Obsolete Non-Gold Coinage

by Richard Kevin Paul

58 pages (color) | 7.5 x 7.5 in. | 5 oz.

Copyright/Publish Date: 2016

In the first book of this series, Coins For Kids, the focus was on modern circulating coins - most of which could be obtained with some searching from everyday change received from stores and banks, etc. The coins in this book, Old Coins For Kids, are both impossible to find in everyday change and sometimes impossible to purchase due to their scarcity. In fact, most people have never seen real examples of some of the coins in this book.

There are volumes of information written about most of these coins by true experts; however, the goal here is simply to introduce young readers and novice collectors to these historical coins. I have tried to present the coins and organize this book in a way that is easy to understand and provides basic information on their physical details, years of issue, and some variations of their design.

Contains information on non-gold:

Half-Cent

Large Cent

Small Cent

Two Cents

Three Cents (Trime)

Half Dime

Dime

Twenty Cents

Quarter

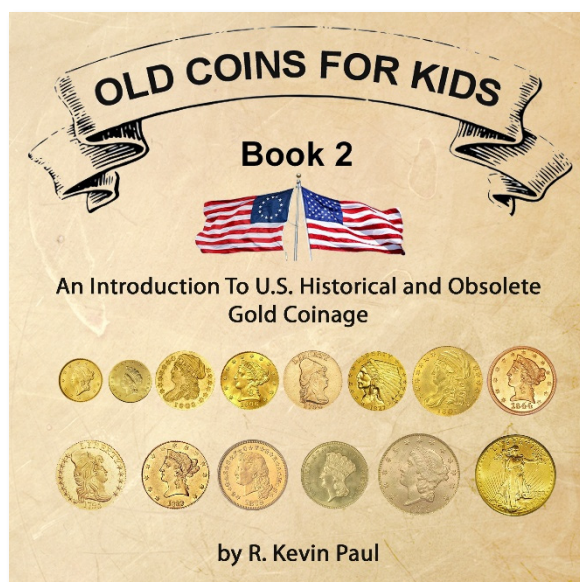

Half-Dollar

Silver Dollar

BULLION COINS FOR BEGINNERS™

An Introduction to Bullion Coins and World Mints

by Richard Kevin Paul

44 pages (color) | 7.5 x 7.5 in. | 4.2 oz.

Copyright/Publish Date: October 2020

The purpose of BULLION COINS FOR BEGINNERS is to introduce beginning coin collectors to Bullion Coins and World Mints. Bullion refers to both coins and bars, but the focus of this book is on coins. Most bullion is purchased for investment purposes; however, in this book you will learn that there are many beautiful designs from many countries that make them fun to collect as well.

While some Mints produce many special-issue and themed bullion coins, the coins included in this book are limited to long-running consistent designs that are not significantly altered each year; and are widely recognized as being associated with that particular country. This book introduces 11 Bullion Coin programs and 38 Mints from 33 countries including:

Australia Kangaroo, Kookaburra, Koala, Platypus

Austria Philharmonic

Canada Maple Leaf

China Panda

Kazakhstan Irbis (Bear)

Mexico Libertad

New Zealand Kiwi

Somalia Elephant

South Africa Krugerrand

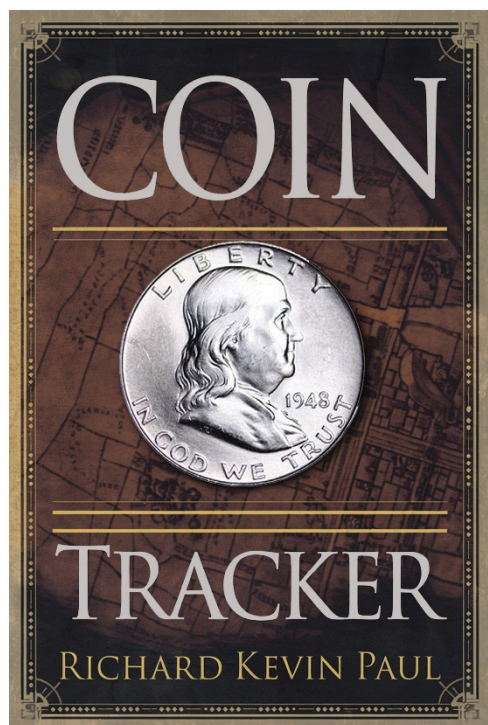

United Kingdom Britannia

United States Eagle

COIN TRACKER™

Your Complete Coin Checklist at a Glance

by Richard Kevin Paul

95 pages (B&W) | 6 x 9 in. | 7 oz.

Copyright/Publish Date: June 2025

Keep track of your coin collection - which coins you have, which coins you're missing, coins you may not be aware of. Access all this information at your fingertips. Coin folders are great, but you can't take them with you or have them all open your desk. Use this Coin Tracker while you're trying to complete a series, searching bank rolls, shopping online, or at coin shops or coin shows. Information printed on the right-side pages for ease of writing. This book includes complete lists of each series including:

Cents - Indian Head (1859) through 2025

Nickels - Shield (1866) through 2025

Dimes - Barber (1892) through 2025

Quarters - Barber (1892) through 2025

Half Dollars - Barber (1892) through 2025

Dollars - Trade (1873) though 2025

American Silver Eagles (1986) though 2025

TIPS and TOOLS for BEGINNING COIN COLLECTORS™

by Richard Kevin Paul

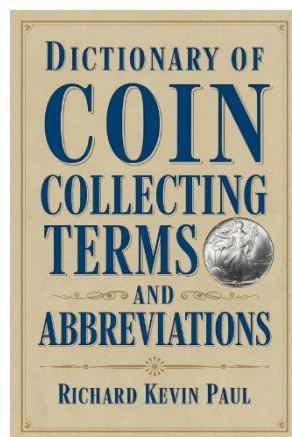

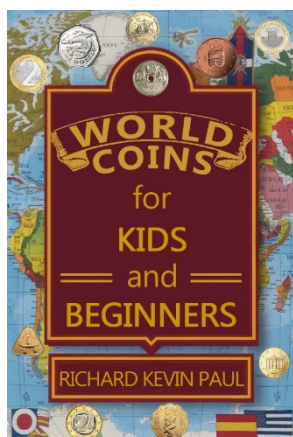

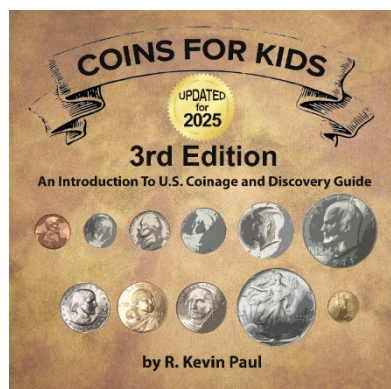

25 pages (B&W) | 6 x 9 in.

Copyright/Publish Date: April 2025

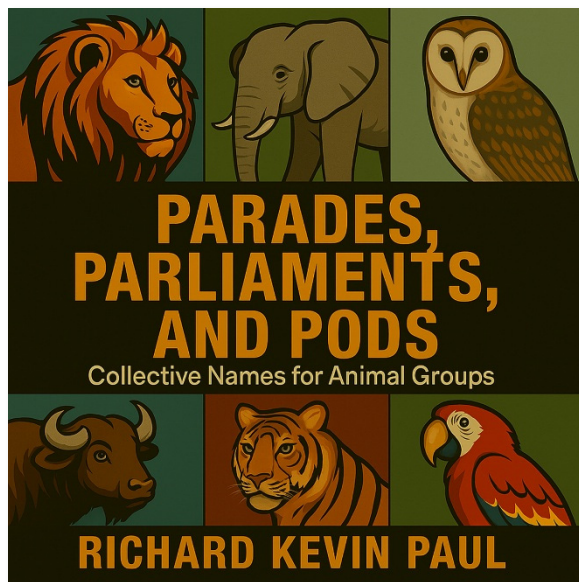

You've slowly acquired and assembled your coins and put them in a box or drawer, only to discover a few years later that many have developed tarnish or unsightly blemishes or spots. I hope that this guide can help prevent this from happening to you and your collection. I've learned, through trial and error, some strategies and tools that help reduce the negative consequences of improperly handling or storing your coins. We all work hard to build our collection – it's worth the effort to protect it to the extent that we can.

PARADES, PARLIAMENTS, AND PODS™

Collective Names For Animal Groups

by Richard Kevin Paul

81 pages (color) | 8.5 x 8.5 in.

Copyright/Publish Date: July 2025

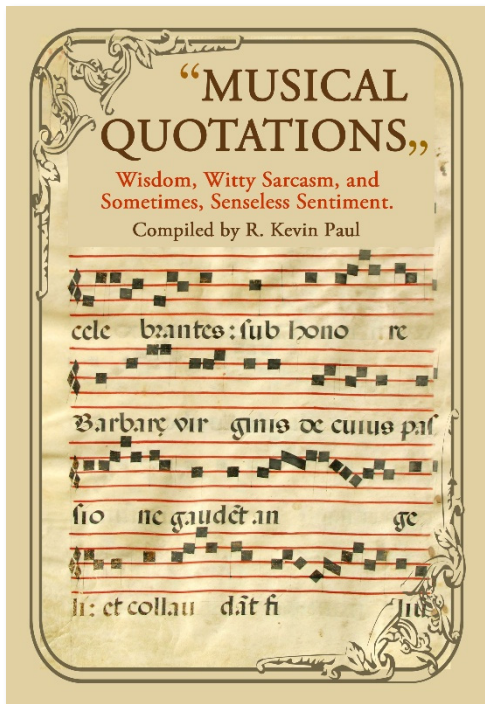

Google Play
Books

From a parliament of owls to a crash of rhinos, *Parades, Parliaments, and Pods* uncovers the poetic, quirky, and surprisingly evocative world of how we name groups of creatures.

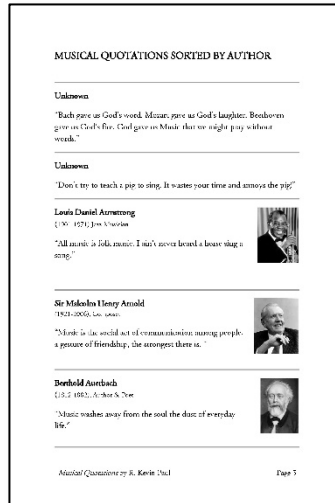

Each entry is paired with striking animal imagery - unified by a bold grid-style design with entries color-coded by animal type. Whether you're captivated by a murder of crows or charmed by a mischief of mice, this book invites you to explore the fascinating language of wildlife through a lens of beauty, intelligence, and wonder. Here, the animal kingdom becomes a symphony of togetherness, captured in names that shimmer with mystery and metaphor.

It's a celebration of the interconnectedness of creatures both great and small. Let the collective spirit of the animal kingdom leap off the page.

171 creatures sorted by Animal Name, Collective Name, and Animal Type.

MUSIC TEACHER'S LESSON PLANNER™

Organize Student Music Lessons and Track Student Progress

by Richard Kevin Paul

64 pages (B&W) | 5 x 8 in.

Copyright/Publish Date: August 2025

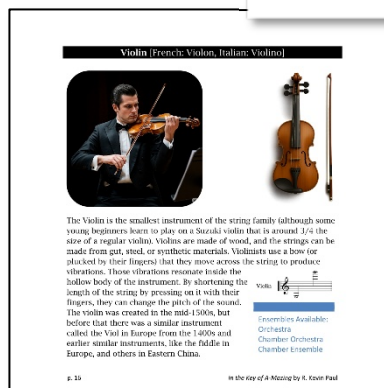

64 pages; one planner for each student, one page for each lesson. One page in the front for detailed information about the student. Enough planning pages for 8 months of two lessons per week. Each page has space to record scale progress, upcoming concerts, playing tests, assignments, notes, and reminders. This lesson planner features an elegant matte cover so you can write the student's name on the front with a marker (or use your label maker). Thin enough to take several with you for all your students that day in your backpack, briefcase, or bag. The estimated cost of each planner is about 26% of one 1/2-hour lesson.

As a music teacher I have tried many different unsuccessful methods for recording student lesson progress, assignments, and for keeping notes. I developed this planner to keep everything organized about each student in one small notebook, without trying to use one large notebook for all my students. I no longer have to flip through pages and pages trying to find the right student or the right lesson.

IN THE KEY OF A-MAZING™

Discovering Classical Music and Musical Instruments

by Richard Kevin Paul

81 pages (color) | 8.5 x 8.5 in.

Copyright/Publish Date: August 2025

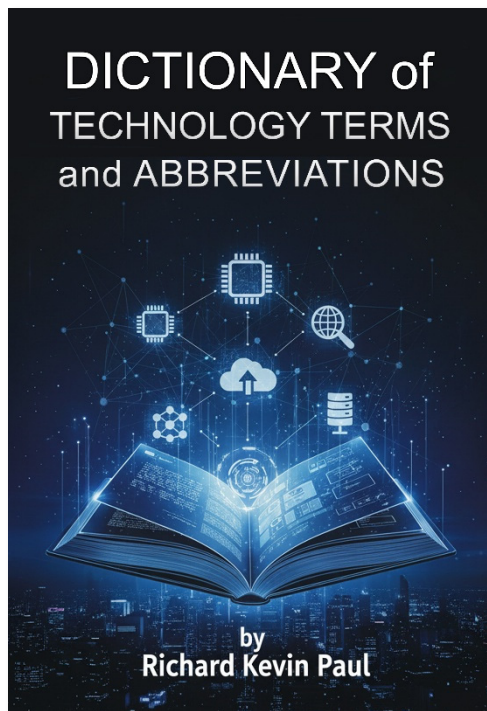

In the Key of A-Mazing introduces you to the instruments played in orchestras and bands, as well as classical chamber ensembles and solo instruments. It includes images and brief descriptions of instruments in the String, Woodwind, Brass, Percussion, and Keyboard families.

Maybe you are just beginning to think about starting to learn to play an instrument, or maybe you have never played an instrument but want to learn more about them. Musicians study, practice, and train all their lives trying to get better and more precise on their instrument. And you don't have to become a professional musician to reap the benefits, joy, and satisfaction of learning to play.

Having up to 100 musicians playing different instruments in orchestras or bands all working to achieve the sound that's written in the music, all in perfect coordination, is truly a miracle. Musicians who are all trained at different music schools and by different teachers, all individuals with different backgrounds and ethnicities, coming together with one purpose and fully cooperating with each other. Similar to a school of fish or flight of birds, all moving together and turning together all at the same time.

Richard Kevin Paul, a Virginia native born in 1971, earned his Bachelor of Music degree in Education in 1993 and Master of Music degree in Conducting Performance in 1996. His creative output includes 13 books, over 120 music arrangements for brass quintet and brass ensemble, and ten music compositions for brass quintet, brass ensemble and concert band. Kevin is a member of ASCAP, American Numismatic Association (ANA), Numismatic Literary Guild (NLG), and Numismatic Bibliomania Society (NBS). His first edition of *The Complete Guide to Collecting Composer Coins* received "Extraordinary Merit, 2015 Writers' Awards" from the Numismatic Literary Guild.

“Dear potential readers: All of my books began as personal notetaking for my own use. As I gathered more information through research and experience, I thought that information and insight might be valuable to others - especially young people and adults just getting started with coin collecting. The Numismatic (coin-collecting) world is extremely vast, and I haven't found many satisfying books on general beginner coin knowledge, so I've written my Coins For Kids series of books to help bridge that gap (along with a few other new additions that I hope you'll find both useful and informative). I'm neither a coin expert nor a professional writer, but I'm a lifelong collector and I've taken great care in writing and producing my books. I think my experience as an Educator has helped me present my books in a way that is clear, informative, accurate, well-organized, and visually interesting - I hope you agree! I've also written my Coins For Kids book series so as not to resemble textbooks or cartoonish children's books, with just enough text to provide accurate information and some historical insight.

I've found that searching (with a little knowledge) through "pocket change" can be an inexpensive, satisfying, and rewarding experience - and you can do it on a budget. Once you get started - you'll discover favorites as you grow your collection and expand your coin collecting interests. Whatever your motivation, I know you'll get hooked once you start collecting - and it's my privilege to be able to help you along the way. I'm very thankful for all the positive reviews and hope my books draw more people to coin collecting and help enrich their lives.”
